

## COMPACT 4

- Perfect combination of efficient heating, reliability quality and value
- Easy-fit, high efficiency radiators - with a wide choice of sizes and shapes to suit any room at home or in the workplace.
- Quick and simple and inexpensive to fit
- The most popular choice of heating solution amongst professional fitters of domestic radiators -
- UK's largest range of "in stock" steel panel radiators

### Ultraheat Compact 4 radiators come in four types

**SF:** Single Panel Single Convactor (45mm deep)

**DF:** Double Panel Double Convactor (100mm deep)

**HF:** Double Panel Single Convactor (67mm deep)

**TF:** Triple Panel Triple Convactor (160mm deep)

Heights: 200, 300, 400, 500, 600, 700 & 900mm

Lengths: 200, 300, 400, 500, 600, 700, 800, 900, 1000, 1100, 1200, 1300, 1400, 1600, 1800, 2000, 2200, 2400, 2700 & 3000mm

### Quality and High Technology

Ultraheat Planal and Compact radiators are manufactured using the most technically advanced, modern equipment and tested to EN 442, the harmonised European Standard.

### Energy and The Environment

The efficient use of energy and materials is a constant objective for Ultraheat and a highly qualified team of design and production engineers is constantly reviewing opportunities for improvements in production.

### Testing and Heating Emission

Prior to dispatch, every Ultraheat radiator is pressure tested at 10 bars to guarantee a working pressure of 8 bars

### Water Treatment

On completion of installation, the system should be properly flushed and filled under British Standard Code of Practice for the Treatment of Water in Domestic Hot Water Central Heating Systems BS 7593
